# syrup lounge

A selection of classic and fruit syrups with authentic and natural flavors, ideal for personalizing or enriching the flavor of cold or hot beverages.

The fruit flavors have real fruit juice and are a favorite for flavoring smoothies, shakes and many other drinks.

The classic flavors, on the other hand, have been studied and proven to maintain their flavor and consistency even at high temperatures: therefore, they are best used to personalize your coffees or hot chocolate, enhancing the taste and aroma.

Thanks to their natural flavor and their ability to mix perfectly, Syrup Lounge allow professional bartenders to create endless specialties and tempting alcoholic and non alcoholic drinks.
